for General Government and Higher Education

September 1, 2005

Introduction

This manual outlines Washington State's Compensation Plan to include classification and compensation related information and the supporting rules for General Service, Exempt Management Service and Higher Education employees under the salary setting authority of the Director of the Department of Personnel. All classification and compensation changes, adopted by the Washington Personnel Resources Board and the Director of the Department of Personnel through August 2005 are included in this Compensation Plan.

The salary schedules and special pay ranges referenced in this manual do not apply to many higher education positions. If you are covered by a union contract that was negotiated directly with your college or university, please see your institution's web site for the appropriate salary information.

Description of Job Categories (Equal Employment Opportunity (EEO) Codes)

Washington Administrative Code

(Chapter 357-28) Compensation

(Chapter 357-58) Washington Management Service

SPECIAL PAY RANGE DESCRIPTIONS

A special pay range is a unique salary range assigned to a position or class.

WAC 357-28-025 states in part that these ranges are used for positions based upon pay practices found in private industry or other governmental units. This includes special pay salary ranges and/or compensation practices for higher education institutions and related higher education boards as authorized in RCW 41.06.133.

An affected class is identified by a letter designation following the basic salary range number or by a letter designation preceding a number. In the latter case, a special salary schedule will be used for such classes.

"D" RANGE: This range is a single level hourly rate equivalent to one-half of step A of range 29. It is payable to employees who have dog handler assignments, and only while they are off duty, but are still required to care for the dog in their charge (usually at home). Work time to be pad at "D" range includes, but is not limited to time required for daily feeding, exercising, grooming, and emergency health care of the dog, and care and cleaning of the kennel.

"E" RANGE: This range is used for classes having a prevailing pay range which is shorter than Washington's standard ranges. An "E" range is a standard range with the first four steps removed. Thus, the first step of such a range is the same as Step E of the standard range having the same range number. Periodic increases through the steps of this range are made at the same intervals as through standard ranges, i.e., a two-step increase after six months at Step E and two annually thereafter up to the maximum step of the range.

"G" RANGE: This range is used for classes having a prevailing pay range which is shorter than Washington's standard ranges. A "G" range is a standard range with the first six steps removed. Thus, the first step of such a range is the same as Step G of the standard range having the same range number. Periodic increases through the steps of this range are made at the same intervals as through standard ranges, i.e., a two-step increase after six months at Step G and two annually thereafter up to the maximum step of the range.

"I" RANGE: This range is always ten ranges higher than the range approved for lottery district sales representative or lottery telemarketing representative 1 and 2 and it may be applied only to those classifications. Use of this range is limited to sales incentive programs which: (a) may not exceed thirteen weeks for any program; (b) may not exceed four programs in any consecutive twelve months; (c) require achievement of specific goals which are set for each program by the lottery, such goals to be in excess of normal performance standards for the class.

The lottery is authorized to compensate individual employees on the "I" range for not more than three months as a result of any one sales incentive program, with the number of months stipulated in the incentive program announcement. Within these limits, movement of any employee to and from the "I" range will be at the discretion of the lottery, and shall be from and to the same step, subject to change by the employee's period increment date.

"J" RANGE: This range consists of the single rate per hour of salary range 62, step K. Use is limited to lottery employees who volunteer and are selected for lottery drawing duty as on of the following: (a) the lottery drawing official (LDO); (b) the lottery security official (LSO); or (c) the headquarters drawing official (HDO), as described under lottery procedures.

Employees performing these functions during their normal working shift will not be eligible for "J" range compensation. Employees performing these functions outside of their shift will be compensated by the "J" rate on an hourly basis with a two-hour minimum per drawing period.

SPECIAL PAY RANGE DESCRIPTIONS (Continued)

- **"L" RANGE:** This range is used only for the class of liquor store clerk (228A). The "L" range was designed to more closely parallel the prevailing pay structure for retail clerks in private industry. Periodic increases through the steps of the "L" range are made at the same intervals as through a standard range. Normal progression is steps A, D, G, and K, which represents ten percent per periodic increases. (See page 78 for Salary Schedule).
- **"N" RANGE:** This range is used for classes requiring licensure as a registered nurse and having a prevailing pay range which is longer than Washington's standard ranges. An "N" range is a standard range, step A through K, with eight added steps, L through S. Periodic increases through step K of these ranges are made at the same intervals as through standard ranges. Thereafter, an employee receives a one-step increase each year up to the maximum step of the range. (See pages 79 through 81 for Salary Schedule).
- **"N1" RANGE:** This range applies to nurses represented by local 1199, and is used for classes requiring licensure as a registered nurse and having a prevailing pay range which is longer than Washington's standard ranges. An "N1" range is a standard range, step A through K, with nine added steps, L through T. Periodic increases through step K of these ranges are made at the same intervals as through standard ranges. Thereafter, an employee receives a one-step increase each year up to the maximum step of the range. (See pages 82 through 84 for Salary Schedule).
- **"SP" RANGE:** This range is used by the State Patrol for the commercial vehicle enforcement officer, commercial vehicle officer, and communication officer series. (See pages 85 and 86 for Salary Schedule).
- **"T" RANGE:** This range is used for the classes of institution teachers. It is constructed by identifying step K of the regular state range as "step 10" of the "T" range; the lower nine steps are each two regular state range steps apart. Advancement through this range is at the rate of one step per year. (See page 87 for Salary Schedule).
- **"V" RANGE:** This range is for the classes of teachers of the deaf or blind and the Principal, Washington State School for the Blind. "V" ranges are the same as the current ranges of Vancouver, Washington School District #37 for certificated employees of similar background and experience. Advancement through the range is at the rate of one step per year.

Exempt Management Service

The Exempt Management Service (EMS) is a personnel system established separately for managers, directors and other executives exempt from civil service rules. Established on October 15, 1999 by the Washington State Personnel Resources Board this system allows agencies greater flexibility in salary placement and salary adjustment decisions for those positions approved for placement in the EMS by the WSD Personnel Director.

Washington Management Service

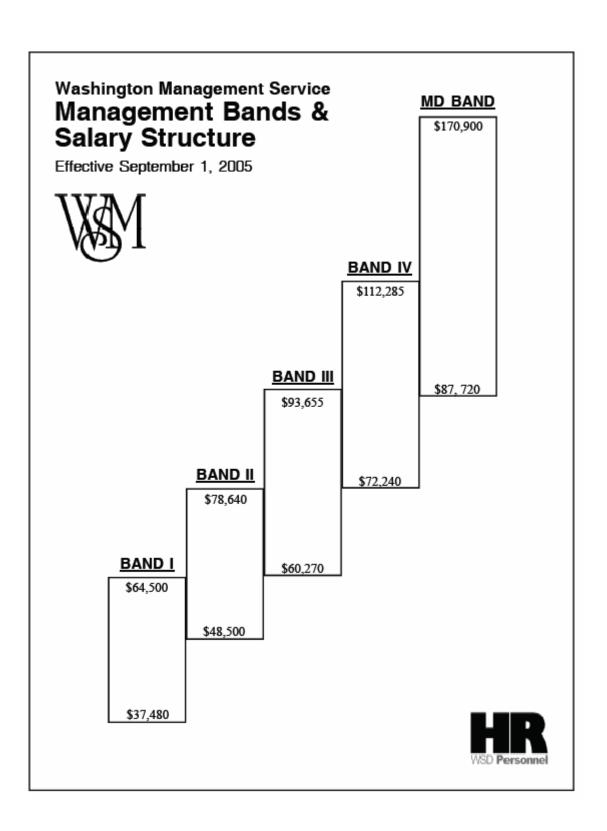

The Washington Management Service (WMS) is a personnel system established separately for civil service managers in state government. It was created by the 1993 Legislature at the request of then Governor Mike Lowery as part of a major civil service reform bill. The WMS is codified in statue as **RCW.41.06.500**.

A key goal of the WMS is to ensure more efficient and flexible personnel administration for civil service management positions and employees. This system supports the initial purpose of the WMS: the selection, development, and retention of high quality, professional managers in Washington State service.

A major objective of the WMS is to support state agencies in their efforts to hire, develop, and compensate managers who effectively demonstrate the vital knowledge, skills, and abilities necessary for management effectiveness in today's diverse business environments.

Key Components of WMS

- Applies to all civil service state employees (except higher education) who meet the definition of manager.
- Simplified classification and compensation system that facilitates mobility and provides flexibility in setting salaries.
- Recruitment and hiring procedures that allow for consideration of all qualified candidates and facilitate workforce diversity.
- Strengthens management development and training.
- Performance appraisal system that emphasizes accountability for program results and managerial skills.
- WMS managers may only be reduced, suspended, demoted, or dismissed for cause.
- The WMS will be administered in a decentralized and regional manner.

Periodic increases through the steps of the "L" range are made at the same time intervals as through a standard range. Normal progression is steps A, D, G, and K, which represents ten-percent increases.

ASSIGNMENT PAY

Following is a list of classes for which assignment pay (AP) has been approved. AP is granted in recognition of assigned duties which exceed ordinary conditions. The "premium" is stated in ranges or a specific dollar amount. If stated in ranges, the number of ranges would be added to the base range of the class. The "reference number" indicates the specific conditions for which AP is to be paid.

Group A indicates those classes which have been granted assignment pay; Group B indicates those assigned duties granted AP which are not class specific.

Exchange Time

Exchange Time is time off with pay in recognition of extraordinary/excessive time worked over an extended period or for work on a scheduled day off when required by the employer. Exchange Time is only available to overtime-exempt employees and carries no entitlement. There is no requirement for employers to offer Exchange Time and policy provisions are generally discretionary.

Employers developing formal Exchange Time policies are encouraged to consider the following points in the development of their specific policy language.

- Exchange Time applies only to overtime-exempt employees (OEX).
- Exchange Time for overtime-exempt employees who are represented employees is covered under their specific labor agreement.
- OEX employees are paid a salary to perform assigned job responsibilities. It is common for OEX employees to work additional hours at their discretion during a workday/workweek.
 Often this additional time worked may be offset by employees during the workweek with their managers/supervisors approval.
- Policy language should not convey an automatic entitlement. Earning exchange time on an hour for hour basis conveys entitlement and should be avoided.
- Employers should identify specific qualifying circumstances/expectations for earning and taking of exchange time.
- Exchange time may be accrued to a limit determined by each employer, not to exceed 174 hours (480 hours for law enforcement).
- Formal Exchange Time policies should be well communicated and understood by management and employees.
- Exchange Time earned, but not taken, may not be paid out in cash if an employee terminates state employment or leaves the position. Employers may allow earned exchange time be taken prior to an employee leaving the position.
- Exchange Time is considered paid time off but not time worked.
- Exchange Time should be used as soon as possible after being earned and prior to an employee using vacation or sick leave.
- The employer retains broad discretion in the development and use of Exchange Time.
- The term 'Exchange Time" carries with it only the terms or provisions identified by an employer's formal policy. It is not to be called or regarded as "Compensatory Time" which is a separate and entitled pay practice most commonly applied to overtime-eligible employees.
- Reinstatement of earned Exchange Time may be offered to employees who have been separated from state service for a period of three years or less.
- The employer's policy should spell out how accrued Exchange Time will be treated upon an employee's transfer to another employer or within the same employer.

Work Period Designations and Descriptions and FLSA Exemption Criteria

Work Period Designations and Descriptions

Work Period Designations (WPD) identify an employee's eligibility to receive additional pay for overtime worked. For more information, consult the applicable <u>labor agreement</u> if the position is represented.

Non-Represented Employees

Overtime-Eligible

Positions determined to be covered under the mandatory overtime provisions of the Fair Labor Standards Act. Overtime-eligible employees earn overtime pay for all hours worked over 40 hours in a workweek. All hours worked by an employee and time-off for holidays, qualify towards the 40 hour workweek threshold. Time-off with pay including vacation, sick, personal holiday and recognition leave, do not qualify.

Overtime-Exempt

Positions determined to be exempt from the mandatory overtime provisions of the Fair Labor Standards Act.

Represented Employees

Employers and employees should review collective bargaining agreements for specific requirements concerning work period designations and overtime eligibility.

Overtime-Eligible

Positions determined to be covered under the mandatory overtime provisions of the Fair Labor Standards Act. All hours in pay status count towards the overtime threshold for each specific work period designation. Applicable work period designations include:

- Non-Scheduled Employees earn overtime for all hours worked in a workweek.
- Scheduled Employees earn overtime for all hours worked outside their work schedule.
- Shift Employees earn overtime for all hours worked in excess of their work shift.
- Engineering Employees earn overtime for all hours worked (in pay status) over 40
 hours in a workweek. An employer, with the prior notice, may adjust an employee's work
 schedule, without penalty, during the hours between 6:00a.m. and 6:00p.m.

Overtime Exempt

Positions determined to be exempt from the mandatory overtime provisions of the Fair Labor Standards Act.

FLSA Exemption Criteria (Applied to both Non-Represented and Represented Positions)

Two tests must be met in order to assign a position to the Work Period Designation (WPD) status of overtime-exempt. These tests are the duties test and the salary basis test. Determining whether a position meets the criteria of these exemption tests is difficult and requires experience both in the interpretation of the exemption language and an understanding of how the Department of Labor and the courts have ruled on the application of these tests to specific circumstances. Changes to an employee's WPD can have significant impact beyond the specific position being reviewed. Employers should approach changes to an employee's WPD cautiously and utilize all resources available or required when determining a position's WPD status.

In addition to the summary information provided, Department of Personnel (DOP) has a more detailed presentation resource entitled "Navigating, Understanding and Complying with the Fair Labor Standards Act" on its website at

http://hr.dop.wa.gov/training/washington_works.htm#Tools. For represented employees, employers should also review the applicable <u>labor agreement</u> as well as consult with the DOP's Labor Relations Office on changes being considered to an employee's WPD.

1) <u>Duties Test Exemption Criteria</u>

The duties test focuses on the work actually being performed by the employee as identified in their classification questionnaire. Experience and knowledge of the interpretations of this language is important when conducting an exemption review.

Focus on Key Criteria

- Independent judgment and discretion
- Substantive impact on management policy

Appraising Independent Judgment and Discretion

- How many different matters must the employee weigh in reaching a decision?
- Does the employee have a relatively narrow range of possible responses to a problem or does the employee have a broad range of possible responses?

- Are the responses to a problem organized in an incremental fashion or are they mutual exclusive courses of conduct?
- Does the individual solve discrete problems or does the individual establish procedures by which to guide the conduct of the business?
- Does the individual actually resolve problems as they arise, recommend how the problem should be resolved, or merely mark them for review by someone else?
- If the individual's responsibility is to make recommendations:
 - What proportion of the recommendations are accepted?

 - How many other individuals have some input into the same decision?
 - What if the relative authority of the individuals who have input into the decisionmaking process?

2) Salary Basis Test

The Salary Basis Test focuses on the approach and application of pay and pay practices for employees. In order to retain their exemption, employees must be paid on a salary basis. Employees must be paid the minimum qualifying wage of at least \$455/week (covers all exemption types).

- Pay reductions for quality/quantity of work performed (exceptions noted) may only be made in full workweek increments.
- Authorized pay reductions must be in full day increments. These include:
 - FMLA
 - New Hire (Mid-Week)
 - Personal Business

- Absence for Being Sick
- Gross Violation of Safety Rules
- Reduction of employee's leave balance in increments of less than one day allowed.
- Permanent pay reduction okay if employee is (legitimately) reallocated downward.
- Part-time employees may retain their overtime-exempt status if:
 - Paid a minimum of \$455/week (No prorating), and
 - Their pay does not change based on the hours actually worked.
- Pay practices should not convey strict entitlement.
- Pay practices are also important to exemption determinations. Employer pay practices with respect to overtime-exempt employees should focus on these points
 - "Opportunity to" versus "entitled to receive."
 - Recognition and Payment of <u>Additional Compensation</u>. Both monetary and time off with pay are okay – be careful not to create entitlements, or unreasonable expectations for additional pay.
 - Employers may authorize standby, callback, assignment pay and shift differential "premiums" for overtime-exempt employees. However, if provided, these practices should be based on WAC rules, labor contract language, equity, business need or alignment with accepted practices within the position's field or industry and should **not** be used as a means to supplement an employee's base salary.
 - Failure to comply with these tests may result in the loss of a
 position's/employee's overtime-exempt status creating the potential for an
 overtime back-pay liability.
